

## WOW: Optional Day Trip

The extra hours we spend here on this day trip take your lessons from skills learned to becoming a certified paddler! As long as you have passed all of the required skills, you can earn your Paddle Canada Level 1 certification on this day trip.

Paddle Canada Level 1 is a prerequisite for Paddle Canada Level 2. In a Level 2 course, you learn skills such as an introduction to rolling, low and high brace turns, bow rudders and more. Getting certified means you'll know if you and a friend are at the same level to paddle in conditions and rescue yourselves and each other if needed. Sometimes a course is required to rent kayaks in a certain area to prove that you can paddle safely.

If you dream of instructing, this is also your route!
